classii:	led Sechet/	To FOA/MIAC/Washington and USRO/Paris, tanbul and Ankara, FOR INFORMATION ONLY, VUS OFFICIALS ONLY; to State posts at de, FOR ACTION, classified as SECRET.	25X1A2g
has not, as	yet, been p	tification of the names reported in possible. The following information may be of us vestigation of the reported transaction.	36,

a. POPOV of ETABLISSEMENT PEPPER, Vaduz, Liechtenstein

l. The most likely identity of Popov and the "Pepper" firm appears to be the following: A Herr POPOFF, "a naturalized British subject, of INTERNATIONAL IMPORT AND EXPORT GESELLSCHAFT, Krefeld, West Germany was reported in March 1953 as purchasing a number of strategic items, estensibly on behalf of INTERCONT, Belgrade. Many of these orders were placed with Popoff by Swiss intermediarles, one of whom was FALKIMEX, the firm of the notorious Polish procurement agent, Isaac Falk.

In late 1952 a shipment of ball bearings consigned to INTERCONT was shipped from Rotterdam to Rostock on the instructions of ETABLISSEMENT RIVER, Vadus, Liechtenstein (Bonn D 988, 17 September 1953 may refer to various deals in which Pepoff's firm was involved although Pepoff himself is not mentioned.

State Dept. declassification & release instructions on file

SECRET/Control US OFFICIALS ONLY

With regard to Popoff it has also been reported
"His undesirable activities as the guiding hand behind
Tarlair Ltd. and Burlington Development Co. Ltd in connection
with textile contracts made in 1947/48 through Jela, are
already known to the Board of Trade." (See Allied Control
Authority, Germany, Office of the Economic Adviser, Report
#9, 23 march 1953).

ETABLISSEMENT RIVER was involved in the diversion of copper wire shipped from Sweden on the WIROS to Rotterdam where it was transshipped to Gdynia. CITEX, a forwarding firm, arranged for the transshipment on instructions from Etablissement 25X1A2q River. A second attempt to divert 4000 tons copper wire and 25X1A2g sheets from Sweden has been prevented 2. Belgrade D-553, 16 February 1954 reports a transaction which involved ETABLISSEMENT PERPER and PROGRESS the Yugoslav firm purported to be the end-user in the subject transaction. According to the Belgrade despatch an unnamed UK firm applied for an export license to cover a shipment of 3500 tons of copper in various forms to Progress. The application for the license was supported by a declaration that the copper would not be re-exported and an end-use certificate by the Yugoslav Chamber of Commerce in Belgrade to the same offect. 25X1X7 were aroused since the copper was to be purchased directly from the supplier rather than through the Exchange payment was to be in dollars, shipment to be via Antwerp, and the Liechtenstein firm appeared as an intermediary. (In view of the current difficulty of identification of the Liechtenstein firm "Pepper", it is of interest to note that the name was illegible in this instance and that "Pepper" seems to be the best possible reading). 25X1X7 Metodi Simeonov POPOV has been reported as Commercial Counselor of the Bulgarian Legation in Bern. It is thought

25X1A2g
